

Performance Agreement

Number:	PA-000001
Publisher:	NIMS
Standard:	NIMS Machining Version 1, 2020
Section:	CAM Milling Programmer Role (MAC-003V1)
Time to Complete (max):	N/A
Related NIMS Credential(s):	CAM Milling Programmer

Agreement

All stakeholders are recognized as performers working to validate true job performance. In accordance with referenced standards, (a) Organizations agree to design or select Performance Measures that validate performance requirements of their community and provide resources required for training and learning, (b) Trainers agree to transfer all required knowledge to prepare trainees for successful performance, (c) Trainees agree to utilize all provided resources to learn to the best of their ability.

Validation Groups

Any Performance Measure linked to this PA must combine specified duties, as shown in the following groups, into a single experience for proper performance validation. If there is only one group, the PM must validate all duties within a single experience. If there are multiple groups, multiple PMs must be completed in order to satisfy this PA.

Group	Duty Name	Duty ID
Group 1	Duty 1.01: Process Planning	MAC-CMP-20073V1
	Duty 1.02: Modeling	MAC-CMP-20074V1
	Duty 1.03: Toolpath Creation	MAC-CMP-20075V1
	Duty 1.04: Program Verification	MAC-CMP-20076V1
	Duty 1.05: Documentation	MAC-CMP-20077V1
	Duty 2.01: Coding	MAC-CMP-70078V1
